Elliott Aviation Selects Air BP as Key Fuel Supplier

Air BP is awarded aviation fuel contract to industry recognized chain of FBO and MRO facilities located in Moline, Omaha, Des Moines and Minneapolis.

Salem, Oregon – September 2007 – Elliott Aviation, the industry recognized Midwest FBO and MRO chain, recently awarded Air BP Aviation Services a long term fuel services contract for MLI, DSM, FCM, and OMA locations.

In addition to fuel supply, Air BP will provide Elliott's operation with support services including marketing, training, transaction processing solutions and comprehensive business building programs.

"We are very pleased to be selected to provide Elliott's aviation fuel needs," states Steve McCullough, Air BP VP of Sales and Marketing. "We believe that the union of Elliott's first class operation in tandem with Air BPs aviation knowledge base and fuel offering provides a powerful combination in the marketplace."

"Air BP's training, customer service programs and marketing are an added-value to our company and were major factors in our decision process," states John Mansfield, Vice President of FBO Services for Elliott Aviation. "We are excited about our new partnership and being able to provide additional benefits to our customers."

About Elliott Aviation

With over 70 years of experience, Elliott Aviation is one of the most experienced business aircraft sales and service companies in the industry and is recognized as a world-class provider of *Total Aircraft Solutions*. In addition to avionics, maintenance, paint and interior refurbishment, Elliott provides FBO, fueling, aircraft sales, charter and management services. Consistently rated one of the top five avionics centers in the nation, Elliott Aviation has gained status as a world leader in STCs for installation of FMS, TCAS, GPWS, EGPWS and other high technology equipment in a variety of turbine aircraft.

About Air BP

Air BP is a leading global marketer of aviation fuels, related products and support services. They provide aviation fuel, lubricants and related services at more than 1,600 locations in 90 countries around the world.
